25 **Filum**

Height-adjustable pendant lighting fixture with touch dimmer and switching technology. Fluorescent tube can be rotated 360° for targeted lighting. The switching and stepless dimming functions are executed by touching the pin in the fluorescent tube. The pendant lamp is suitable for all ceiling heights, since the cable lengths can be individually adjusted. The fluorescent tube is made of brass and then plated in shiny chrome. The geometric counterweight is made of black plastic.

Material: brass, illuminant: dual LED, LED lifespan: 50,000 hours, LED-CEE: F, light colour: 3000K, Ra: 90+, dimmable: touch dimmer, primary voltage: 220V - 240V, secondary voltage: DC 24V, ECG ceiling fixture: 75 x 70 mm, rotatable fluorescent tube: Ø 18 mm

Scope of delivery: complete luminaire with ceiling mount including electronic LED ballast unit in the ceiling fixture and touch dimmer on the fluorescent tube. Pendant cords as standard for a ceiling height of 3.10 metres.
