

05 Acus Office

A piece of minimised technology. Aesthetics in motion and workmanship. Clear relationships as to form and functionality. The lamp is attached to the table-top with an elaborately developed, patented clamping foot. The light stand can be raised or lowered as desired. The fluorescent tube's inclination is fully adjustable from a horizontal to a vertical position. In addition, the fluorescent tube, and therefore the light output can be rotated by 140°.

All electronic components as well as the switch are located as a ballast inside the thickened fluorescent tube. The wiring is 2.5 metres in length. Two rocker arms on the lamp make assembly tools unnecessary. The elegant, handmade lamp is destined to be a classic.

Material: brass, illuminant: Power LED, LED-CEE: F, Ra: 92+, Kelvin: 3100K, rotatable fluorescent tube: Ø 18 mm, lamp length: 1300 mm, height adjustability: up to max. 800 mm, plate thickness: up to max. 35 mm

Scope of delivery: whole lamp with illuminant and plug-in power supply.
