

15 Vestiaire

The classic wardrobe rail has now turned into wardrobe lighting. High-quality brass tube with two decorative rings enclosed by a continuous LED light strip with a 3000 Kelvin light colour. This lighting makes the often tedious choice of what to wear easier. If the wardrobe doors are closed, the light will then automatically switch on when the doors are opened. On request, the lamp can also be delivered according to the dimensions you need.

Material: brass, illuminant: power LED, lifespan: 50,000 hours, LED-CEE: F, light colour: 3000K, Ra: 92+, primary voltage: 220V - 240V, secondary voltage: DC 24V, tube dimensions: Ø 34 mm

Scope of delivery: whole lamp with two decorative rings and mounting blocks as well as ballast unit. (Cabinet switch will be charged extra)
